

Shortt's Shorts on Young Living's Essential Oils

***“Essential Oils are essentially the
plant’s immune system in a bottle.”***

***The molecular structure of Y.L. Essential
Oils is very similar to human cells, therefore
we can easily absorb and metabolize them.***

***King Tut was buried with gold and Essential
Oils. When his tomb was discovered, the
essential oils had all been stolen and the
gold remained!***

Did you know that:

- Most women put over 500 chemicals on their skin before breakfast?***
- Our epidermis (skin) is our largest organ and absorbs anything it touches in 20 seconds?***
- Sensitivity to smells is almost always because of added chemicals as in candles, perfumes, deodorizers etc?***
- Know what you are buying – a bottle of Essential Oil can be labeled 100% pure if it just has 5% pure essential oil and the rest filler and chemicals?!***
- With Essential Oils, you get what you pay for!***

***Have your Young Living Oils delivered to your door anywhere world-wide.
